## Marking options and covers for double row terminal blocks

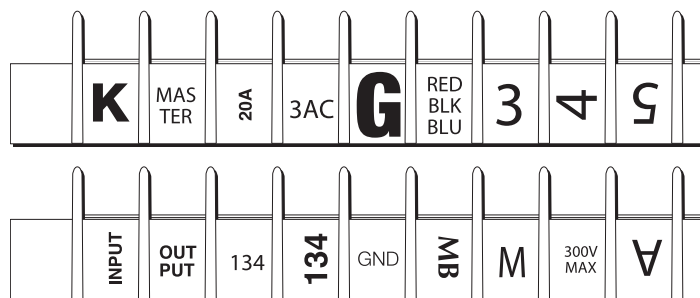

## Standard marking

Standard markings are applied directly to the side(s) of a block. The standard marking color is white. The standard numeral height is 0.125 inches (3mm).

Note: Blocks marked on both sides require a different code for each side. Example: Style L1 on one side of the block requires Style L2 on the other side to ensure common terminal marking. To order, add appropriate suffix (L1, L2, L3, L4, L5 and/or L6) to block catalog number in the proper sequence.

## Special marking\*

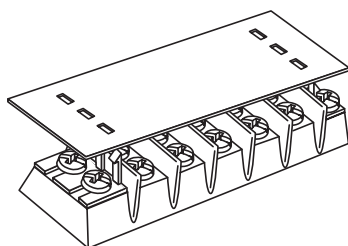

Special markings are available at an additional charge. Drawing(s) must be submitted to ensure accuracy of part required. Consult factory for price and delivery.

\* Not available on TB400 products

## Covers

(must be ordered separately)

Covers prevent personnel, screws and foreign items from contacting live terminals, and are available in white (opaque) or clear plastic. Two cover clips are supplied with each cover. The cover width is 1.31 inches (33mm). Example: 10 position cover, white, TB100 = catalog number X12010.

## Cover catalog number build-a-code†

	120 = TB100 - white	02 to 30 (TB200/ TB200HB)	
	219 = TB200/TB200HB - clear	02 to 24 (TB300/ TB345)	
	220 = TB200/TB200HB - white		
	319 = TB300/TB345 - clear		
	320 = TB300/TB345 - white		

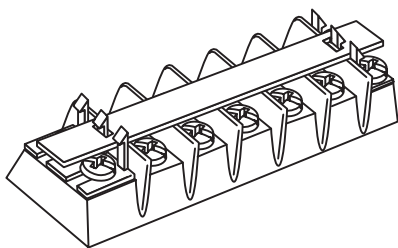

† Cover strip not available for TB400 products.

††Applicable to X219 and X220 only.

### Top marker strips (order separately from blocks)

Top mounting marker strips must be ordered separately and are only available in white (opaque) plastic. Two cover clips are supplied with each marker strip.

Example: 12 position cover, TB200, 0.032" x 0.312" = catalog number X20312.

Example: 12 position cover, TB200HB, 0.06" x 0.50" = catalog number X23312HB.

<sup>†</sup> Marking strips not available for TB400 products

<sup>††</sup>Applicable to X203 and X233 only.

### Bottom marker strips (order separately from blocks)

Bottom mounting marker strips are made of 0.03" thick black PVC. Space is available along the edge to handle most marking needs. All marker strips must be ordered separately.

To order, specify catalog number and required marking orientation. Example: 13 position strip, TB100 with no markings, space for marking one side = catalog number X10513. Consult factory for specials.

Standard numeral height is 0.125". Standard markings are 0-99. Special markings are available on special order. Drawing(s) must be submitted to ensure accuracy of part required.
